## Free Downloads From Lowrey

Some fun musical ringtones and a collection of elegant wallpaper are now available for your mobile device and desktop computer from your friends at Lowrey. They are easy to obtain, fun to show off, and even more fun to share.

### Lowrey Wallpaper

Wallpaper is an image which appears on the home screen of your device. Adorn your screen with custom graphics exclusively from Lowrey.

#### iPhone / iPad

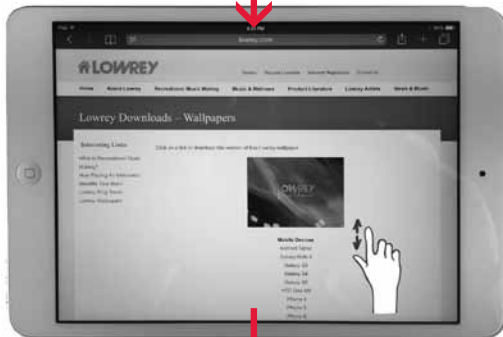

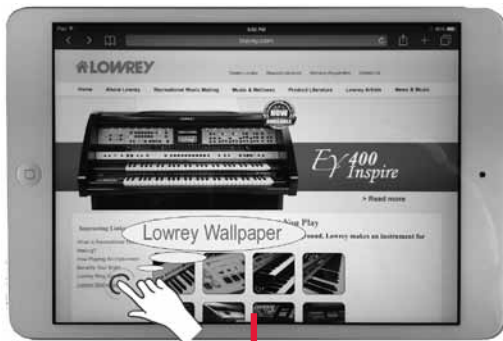

- Go to [www.lowrey.com](http://www.lowrey.com) using your iPhone or iPad.
- Touch Lowrey Wallpaper.
- Swipe to see available images.
- Touch the device name beneath the image you want.
- Touch the image until menu options appear.
- Touch 'Save Image' and image will be saved into your Photo Library.
- From photo library, select the photo you want as wallpaper
- > Open it > Select 'Use as Wallpaper.

You Are Done!

#### Android

Same process as above, except you can save the image directly as wallpaper.

- Touch the image until menu options appear.
- Touch 'Set Wallpaper for' →

# Bank Power

by: Bil Curry

*Bank Setups (formerly known as Bank Presets) are the most powerful feature on a Lowrey!*

The Banks let you modify and organize your sound combinations and features into registrations for a song or the way you like to play. Also, if you ever had an idea for a new feature on a Lowrey, you can usually accomplish what you want to do using the Banks. Banks are why a Lowrey artist can walk in your local Lowrey dealer and quickly set up and play wonderful arrangements with minimal panel tweaking.

## There are two Bank modes:

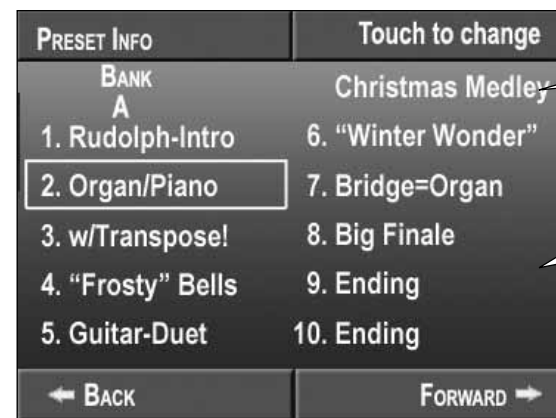

- To quickly access your favorite sound combinations and use them with any style. Press **Memorize** (on), a letter (**A ~ E**), a number (**1 ~ 10**), and then **Memorize** again (off).\*  
*Use this when you find a setup you like and want to use it over and over again.*  
For example: Select the "Aloha" style and memorize the main setup sound into any Bank (follow the instructions above). That Hawaiian guitar setup is now available for you to use with any style just by selecting that Bank location.  
*Make a bunch of these and you'll have your own personal groups of Category presets!*
- To instantly set a sound combination, levels, a style (or none), features, keyboard splits, flute types, and many more at the touch of a button.  
Press **Memorize** (on), a letter (**A ~ E**), a number (**1 ~ 10**, or not to use just the letter), select "**with Style**" in the screen (or press any white key), and then **Memorize** again (off). *The "with Transpose" lets you include that setting as well. Using "with Style" creates a Specific Setup. These setups are not general settings that would be used for many different songs. These are setups specifically made for a specific section of a specific song or medley.*

\* Beginning with the "A" series, if no number is selected the setup is memorized into just the letter. So pressing just A, B, C, D, or E gives you five more Bank setups (and a place to title that page).

## Here's a suggestion of how to organize Banks for specific songs & medleys:

- START WITH A PRE-MADE LOWREY SETUP THAT'S LIKE THE SOUND YOU WANT.**  
Then just change that setup for your specific needs and memorize it to your preferred Bank location. That would be in A-1, C-3, E-5, etc. *but not in the suburban branch of your favorite fiduciary establishment.*  
**Note:** *When you are "starting from scratch" use the Power On sound, except on models that power-on with orchestral strings, in which case use General Setup #3.*
- Memorize your initial setup in both A and A-1 but use "Re-name Bank Preset" to put the name of the song or medley into just A (A-0 or A-zero). Use "with Style" and "with Transpose" to make sure that everything is set perfectly.
- The next time there needs to be a change in the registration (sounds, features, etc.), make the changes and "Memorize" it to A-2 "with Style". Continue memorizing all the changes you want to make for a song/medley into subsequent Bank buttons A-3, A-4, etc.). Use "with Transpose" when needed.
- When you're going to use the style "Ending" button, you may wish to increase the "Orch Plus" volume to maximum and turn off any harmony (A.O.C., Duet, etc.) so you play along with the Ending (practice this to discover which notes work best). Now re-name this setup to "Ending". If your song only used Banks 1 ~ 7 you may want to memorize that ending setup to all the remaining unused setups (8, 9, & 10) so you can easily press any of them for the ending.

Here's an example of how this would look in your touch screen:

Title for this page is the name for A-0.

The names can describe the sounds, what to do, what happens, or anything that helps you remember what you're supposed to play at that point.

Be sure to put other songs in Banks B through E so you won't have to load every song you play one by one. Think of a title that describes all the songs in this group like "Country Songs", "Show #1", or "08/12/15" (date when you saved to the USB). Remember, start with a Lowrey setup, tweak it, and then "Memorize" it to a Bank.

## Lowrey Ringtones

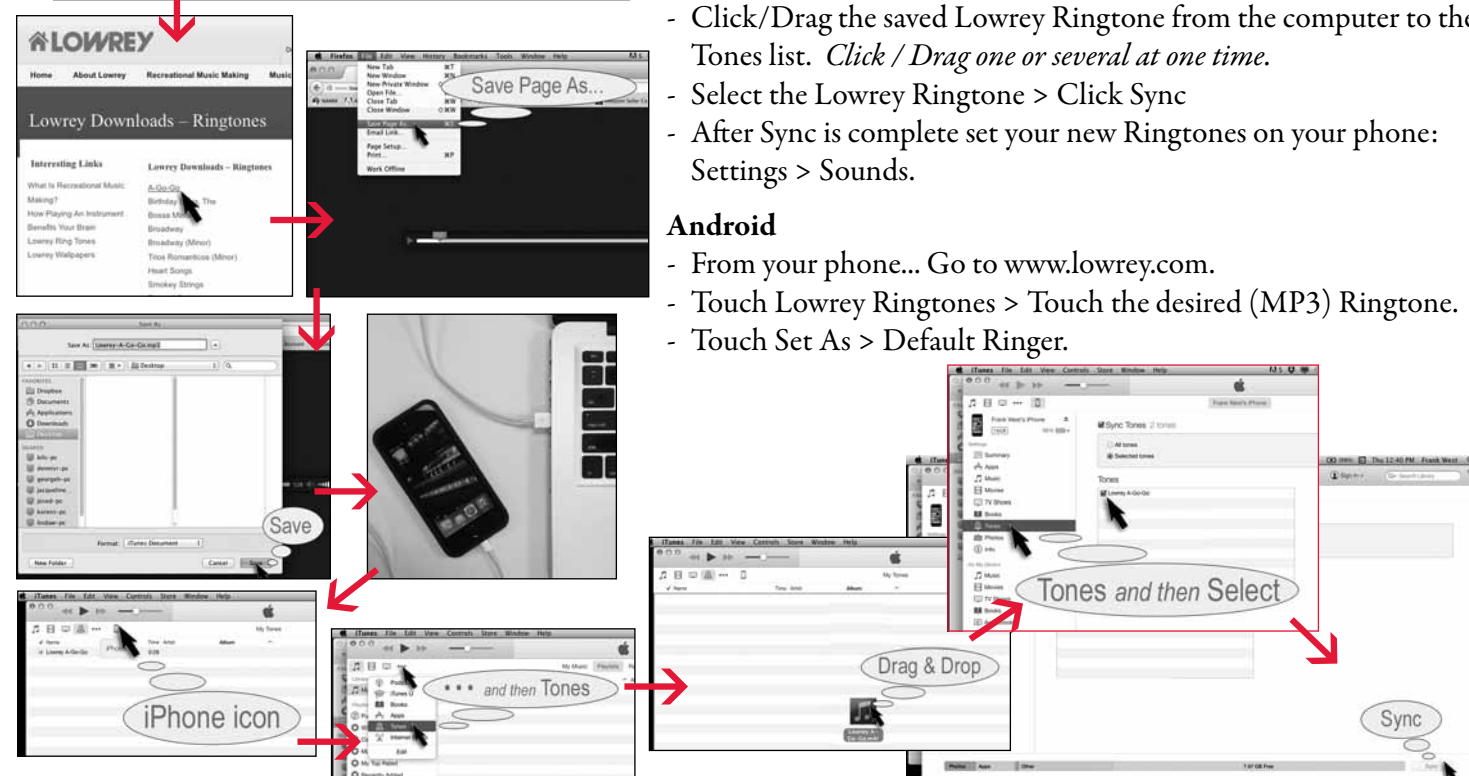

Download one or all ten Lowrey exclusive musical ringtones for your phone.

### iPhone

- From your computer... Go to [www.lowrey.com](http://www.lowrey.com).
- Click on Lowrey Ringtones.
- Click on one of the iPhone Ringtones. *It may begin to Play!*
- Click File > Save As... > Select Folder > Save
- Connect your iPhone to the Computer. *iTunes app will launch.*
- Within iTunes, click on Tones
- Click/Drag the saved Lowrey Ringtone from the computer to the Tones list. *Click / Drag one or several at one time.*
- Select the Lowrey Ringtone > Click Sync
- After Sync is complete set your new Ringtones on your phone: Settings > Sounds.

### Android

- From your phone... Go to [www.lowrey.com](http://www.lowrey.com).
- Touch Lowrey Ringtones > Touch the desired (MP3) Ringtone.
- Touch Set As > Default Ringer.
